Hi Jackie.

Good for you getting recognized for all you do the get things done.

It is always nice to be thanked, and you certainly deserve it.

Have a good weekend.

Mike

On Monday, registration amendments were approved allowing the use of replacement container types for a group of mosquito control products. Previous testing done on these products had revealed the presence of per- and polyfluoroalkyl substances (PFAS) which were subsequently identified as contaminants in the containers these products were packaged in. The efforts of Jackie Herrick, Maria Rodriguez, Dehui Duan, and Shyam Mathur were instrumental in evaluating the data associated with these actions and providing a timely response. Awesome Possum!
